It can sense danger like a horse If a bad-ass monster is close by, it'll make a warning cry and run away.. [1][2] It would act as a non-hostile scavenger that ate the corpses of dead enemies.. This behavior would serve as a logical explanation for the disappearance of bodies that was done to improve the performance of the game.

4List of appearancesOverview[edit]About the size of a horse, Mr Friendly was to be a creature that crawled on legs of uneven length with hoofed feet at its back and horn-like spurs on its front.. [4] It could also alert the player to nearby threats The Half-Life Monster That Never Was: Mr.. An honest, artist friendly label, run on a shoe string with no outrageous promotional or production costs.. It was even suggested that Gordon's glasses fly off and leave the player stuck in combat with blurry vision, a feature that would have been challenging to implement considering the game technology available at the time..
